## **Field Orthopaedics Announces U.S. Distribution Agreement with Spartan Medical for Griplasty™ System**

**Rockville, MD, USA & Brisbane, Australia** – Field Orthopaedics, a leader in innovative extremity solutions, is pleased to announce a new partnership with Spartan Medical, Inc. for U.S. distribution of the Griplasty™ System, a next-generation solution for the surgical management of thumb carpometacarpal (CMC) joint osteoarthritis. This agreement specifically leverages Spartan Medical's deep expertise and established network within the Veterans Health Administration (VHA) and Department of Defense (DoD), enabling access to the Griplasty™ System for hundreds of VA Medical Centers (VAMCs), and DoD facilities across the United States.

The **Griplasty™ System – Base of Thumb** represents the next generation in CMC suspensionplasty for arthritis at the base of the thumb. Engineered with a unique V-Sling, it delivers multi-axis support and distributes load across the base of the thumb. The streamlined instrument set enables a dorsal or volar single-incision approach, supporting high precision minimally invasive surgery.

Spartan Medical, headquartered in Rockville, Maryland, is a Service-Disabled Veteran-Owned Small Business (SDVOSB) with a 17-year track record of excellence and over 700 federal contracts awarded. Recognized as a “top priority vendor” for the Veterans Health Administration, Spartan Medical provides advanced medical technologies to hundreds of VA Medical Centers (VAMCs), Department of Defense (DoD) facilities, and civilian hospitals nationwide.

“Spartan Medical’s extensive network and commitment to bringing cutting-edge solutions to hospitals across the United States make them the ideal partner for the Griplasty™ System,” said Field Orthopaedics CEO Patryk Kania “We are proud to work with a veteran-owned business that shares our mission of improving patient care and outcomes.”

Spartan Medical’s distribution capabilities ensures the Griplasty™ System reaches U.S. providers serving both veterans and military personnel, supporting better healing and better lives for patients with thumb base arthritis.

### **About Field Orthopaedics**

Field Orthopaedics is dedicated to developing innovative, clinically proven solutions for extremity surgery. The Griplasty™ System – Base of Thumb is the latest addition to its portfolio, designed to address unmet needs in Orthopaedic surgery.

### **About Spartan Medical, Inc.**

Spartan Medical is a veteran-owned-and-operated government contractor for the U.S. Department of Veterans Affairs, the U.S. Department of Defense, and other local, state, and

federal agencies. All senior executives have held leadership positions in both the public and private sector and employ the core strengths of solving complex problems through creative thinking, innovative solutions, and highly skilled flexible teams. Spartan Medical maintains its vanguard position by providing medical facilities with A-to-Z solutions that improve patient care and outcomes, especially for America's military and veteran communities.
